: **DECISION ON PETITION**  
:

Attorney Docket No. HRL053

Invention: METHOD AND APPARATUS FOR MODELING  
THREE-DIMENSIONAL ELECTROMAGNETIC SCATTERING  
FROM ARBITRARILY SHAPED  
THREE-DIMENSIONAL OBJECTS

This is in response to the renewed petition under 37 CFR 1.47(a), filed March 18, 2003

The renewed petition under 37 CFR 1.47(a) is **MOOT**.

The instant renewed petition was filed in response to a decision dismissing the first petition under 37 CFR 1.47(a). The decision was mailed on January 24, 2003, and allowed a two month period for filing a renewed petition. The instant renewed petition was then filed on March 18, 2003, with a proper declaration for inventor Contopangos.

As a properly executed declaration had been filed for all named inventors, there is no remedy that could be provided by a petition under 37 CFR 1.47. The renewed petition under 37 CFR 1.47(a) is, therefore, rendered moot.

This application will be forwarded to the Office of Initial Patent Examination for further processing.

Telephone inquiries should be directed to the undersigned at (703) 305-0010.
